Subject: gas consultations extension request and publication in English

Dear Ms. Prieto,

The European Federation of Energy Traders (EFET) would like to ask for an extension until the 15th of July for the recently published consultations on the *Circular de Acceso de Gas* and *Circular de Balance de Gas*¹.

The two consultations carry profound changes and the request is even more compelling as we need an overlap with the upcoming tariff consultation expected by late June.

Also, due to the regulatory impacts of the proposed gas reforms we suggest having the consultations to be published in English, even in the form of an Executive Summary, in order to take a holistic view of all the changes that are foreseen for the Iberian Gas Market.

Finally, we request the CNMC to hold a public workshop open to all stakeholders to discuss their proposed changes. Workshops such as the one requested, for reforms of this magnitude, are best practice by regulators elsewhere in Europe.

We remain available for further discussion with you or should you need any additional information or clarification.

Yours sincerely,

Javier Florez

Chairman EFET Iberian Gas Group
